

## Memorandum of Understanding and Agreement

This Understanding and Agreement are not legally enforceable and binding

ZIPETC.Com and the undersigned Chamber of Commerce (the "Parties") recognize and affirm that an essential element of their relationship is to contribute to the communities in which the Chamber and its members reside.

This contribution is achieved through the requirement that the Chamber will share a portion of its revenue (as described in these materials) derived from this relationship with a local charitable organization.

The Parties agree that the community served by the Chamber is best served by its required financial contribution to a local charitable organization providing educational STEM programs. In this way the community also becomes a part of this relationship.
